

Available exclusively on ADP Marketplace

ADP® HR Connector from SAP Concur

Stay ahead of schedule by connecting two innovative systems

In a time-crunched business environment, it's becoming even more important that employees are focused on mission-critical initiatives, instead of completing manual tasks. To ensure you're getting the most up-to-date data when you need it, while also saving employees time, you need to integrate your business-critical systems into one solution.

The ADP® HR Connector from SAP Concur can help you reduce time and effort in setting up and maintaining user accounts in SAP Concur. SAP Concur user accounts are automatically created and updated via an API from ADP, ensuring accurate user information in SAP Concur.

With the ADP HR Connector from SAP Concur, you can:

- Create and maintain SAP Concur user accounts from the ADP Workforce Now® solution
- Map employee information (such as name, email, location and currency) in a single system
- Reduce the amount of effort required for SAP Concur user setup and maintenance
- Effortlessly integrate workflow and approval status data
- Improve accuracy of user data in SAP Concur (employee adds/terms and cost center changes) for better downstream data, reporting and cost association
- Easily access user credentials and chart of accounts

The Benefits

Eliminate tedious data entry and save time

User profile data flows directly from ADP to SAP Concur

Improved accuracy of user data

About ADP and SAP Concur

For over 20 years, ADP and SAP Concur have partnered to deliver market-leading human capital management and spend management solutions that help companies control costs, improve efficiency, and outperform the competition.

The long-standing partnership between ADP and SAP Concur has created a valuable opportunity for organizations to benefit from two world-class companies. One in five employees are paid through ADP payroll services, while \$84 out of every \$100 of Fortune 500 companies' T&E spend are managed using SAP Concur travel and expense solutions.
